<END>

33. *Open Enrollment Per Pupil Transfer Amount.* Provide that the full-time open enrollment per pupil transfer amount in 2013-14 and 2014-15 would equal the prior year amount plus \$150. Beginning in 2015-16, modify the aid transfer amount under the full-time open enrollment program to be equal to the transfer amount in the prior year plus the revenue limit per pupil adjustment, if positive, provided to public school districts in the current year plus the change in categorical aid funding per pupil, if positive, from the prior year to the current year.

34. *Work Based Learning Program School.* Create a work based learning program for any school in Wisconsin that meets certain criteria, for students in grades 9 through 12. Define a work based learning school as a school in which 100% of students enrolled participate in a program that provides occupational training and work based learning experiences. Specify that a private school participating in the Milwaukee parental choice program would be permitted to operate a work based learning program, and the student's earnings would not be counted toward family income for the purpose of determining eligibility for the choice program. Provide that participation would be determined through a signed agreement between the school, the student, and the student's parent or guardian.

Provide that a work based learning program would be required to meet the following criteria: (a) students must work a minimum of 280 hours each school year, for a total of 40 to 50 days per year and no more than two days per week, and no more than 8 nor less than 6 hours per day; (b) school hours of instruction could not be substituted for hours during which a student works; (c) the school would be required to provide transportation to and from the work place which must be free of charge to the student; (d) employers must comply with state child labor laws, and a student must meet federal labor law requirements for age and immigration status; (e) students must work with an employer that provides occupational training and work based learning experiences; (f) the employer must provide a work place mentor, who must provide necessary supervision; (g) an employer would be required to provide a minimum of 30 hours of training to the student while employed; (h) the employer and mentor must provide a year-end evaluation to the student; and (i) the student could be required, upon application for the program, to demonstrate employability through an interview process, teacher recommendations, or demonstration of previous work, internship, or volunteer experience.

Kava

35. *National Forest Income.* Specify that, beginning with payments received in fiscal year 2013-14, federal National Forest Income (NFI) payments received by DNR would be provided to school districts that contain national forest lands within their boundaries based on the proportion of national forest lands within the school district, rather than being distributed to towns. In addition, provide \$2,500,000 SEG from the forestry account of the conservation fund in fiscal year 2013-14 to be distributed by DNR to towns that were eligible to receive National Forest Income payments during fiscal year 2012-13, based on the proportion of national forest land located in the town.

36. *County Library Levy Exemption for Joint Libraries.* Notwithstanding current law requirements, municipalities participating in a joint library are exempt from the county library levy, provided the municipal library levy is maintained at no less than the average of the last three years.

37. *Energy Efficiency Revenue Limit Adjustment.* Provide that the current law revenue limit exception for energy efficiency measures would apply to debt service on a state trust fund
